

Actividad Flask (Replit.com)

Enlace: <https://Flask-test.inigo1405.repl.co>

The screenshot displays a Replit workspace for a Flask application. On the left, the 'Files' panel shows a project structure with 'main.py' and 'templates' folders. The 'main.py' file is open in the editor, showing the following code:

```
1 from flask import Flask, render_template
2
3 app = Flask(__name__)
4
5 template_folder = 'templates'
6
7 @app.route('/')
8 def hello():
9     return render_template('index.html')
10
11 if __name__ == '__main__':
12     app.run(host='0.0.0.0', debug=True, port=8080)
```

On the right, the web browser shows the application running at <https://Flask-test.inigo1405.repl.co>. The page has an orange header with the text 'folio web' and a search bar. Below the header, there is a section titled '¿Quién soy?' containing the following information:

- Nombre: Inigo Quirana Delgado
- Fecha de nacimiento: 14/05/2003
- Edad: 18 años
- Ciudad: Puebla
- Universidad: IBERO Puebla
- Carrera: Ingeniería en sistemas computacionales

At the bottom of the Replit interface, the 'Console' panel shows the application's startup logs, including the message 'Debug mode: on' and the server's IP address '192.168.1.1'.
